

BECAUSE FAILURE IS NOT AN OPTION®

LM8MWS

## When you need to protect from a distance,

BECAUSE FAILURE IS NOT AN OPTION® So grab hold of your LM8MWS®. It's smaller, slimmer, and lighter than the LM308MWS, yet maintains superior accuracy and long-range knock-down power, so you can reach out and touch someone who needs to be stopped. The octagonal rail gives you a lighter weapon without sacrificing the strength of our machine-gun grade barrel. The reduced weight makes it easier to maneuver, and allows you to carry additional lifesaving tools to ensure the success of your mission.
