If there's one thing LMT® understands well, it's how to manufacture a robust, accurate firearm. Law enforcement agencies and governments agencies often pursue rifle systems with a simple but effective design, and the LMT® Standard Patrol Model delivers. It is available in several barrel lengths and offers two buttstock options: the standard M4 style or our world renown SOPMOD.

OVERVIEW

BUTTSTOCK

MODEL	WEIGHT CHANGE	LENGTH CHANGE	DESCRIPTION
GEN II	STANDARD	STANDARD	M4 STANDARD ISSUE 6-POSITION BUTTSTOCK.
SOPMOD	+0.35 LB / +0.16 KG	+1" / +25.4 MM	SPECIAL OPERATIONS MOD STOCK, 6-POSITION, WITH RUBBER BUTT PAD, CHEEK WELD, AND WATERPROOF BATTERY TUBES.

The SOPMOD buttstock is the preferred choice of USSOCOM and numerous militaries and law enforcement agencies worldwide.

The GEN II stock is what you would find on a standard issue M4 rifle system. This battle-tested stock is both light weight and effective.
