

LMT[®]

DEFENSE

WE UNDERSTAND THE IMPORTANCE OF A RELIABLE FIREARM IN THE HANDS OF A SERVICE MEMBER, LAW ENFORCEMENT OFFICER, HUNTER, OR PATRIOT. OUR DEDICATION TO QUALITY, RIGOROUS TESTING, AND UNWAVERING STANDARDS SERVE TO THAT END.

WE DON'T JUST SELL GUNS, WE BUILD PARTNERSHIPS. LMT HAS OVER FOUR DECADES OF PRODUCT DEVELOPMENT. THIS DEVELOPMENT HAS LED TO CONTRACTS WITH FORCES LIKE THE U.S. DOD, UNITED KINGDOM, NEW ZEALAND, AND ESTONIA. TO THIS DAY, WE CONTINUE TO SUPPORT THEIR EFFORTS AND PROVIDE THE SAME MEASURE OF SUPPORT TO OTHER MILITARIES AND SPECIAL OPERATIONS FORCES IN OVER 45 COUNTRIES THROUGHOUT THE WORLD.

MARS-L

MODULAR AMBIDEXTROUS RIFLE SYSTEM - LIGHT

MODEL	MARS-L
CALIBER	5.56 X 45 NATO
OPERATION	DIRECT IMPINGEMENT
BARREL LENGTH	10.5" - 20"
HANDGUARDS	I913 STANAG 4694 RAIL, M-LOK
FINISH	MIL-SPEC ANODIZED ALUMINUM MIL-SPEC PHOSPHATED STEEL
BUTTSTOCK	M4, SOPMOD, DMR
MUZZLE DEVICE	A2 BIRDCAGE
FIRE CONTROL	SAFE / SEMI / AUTO AVAILABLE

With the development of the monolithic upper receiver, LMT harmonized durability, modularity, and accuracy in the AR15 platform. The MARS L is the most robust and accurate rifle system in service, and is absolutely the most modular. The availability of multiple upper receiver options, barrels for any mission, and accessories to fine tune any build, is essential so the user can assemble countless configurations. This one system can fulfill the role of a close quarters battle rifle or a lightweight DMR, and it can make that transition in mere minutes without an armorer. The MARS L features an ambidextrous charging handle, fully ambidextrous lower, improved ergonomics, and is considered by many the next generation of infantry rifle.

MODULAR AMBIDEXTROUS RIFLE SYSTEM - HEAVY

MODEL	MARS-H
CALIBER	7.62 X 51 NATO, 6.5 CM, .260 REM
OPERATION	DIRECT IMPINGEMENT
BARREL LENGTH	13.5" - 24"
HANDGUARDS	1913 STANAG 4694 RAIL, M-LOK
FINISH	MIL-SPEC ANODIZED ALUMINUM MIL-SPEC PHOSPHATED STEEL
BUTTSTOCK	SOPMOD, DMR
MUZZLE DEVICE	A2 BIRDCAGE
FIRE CONTROL	SAFE / SEMI / AUTO AVAILABLE

The LMT® MARS H is built to be everything a soldier needs in a 7.62x51 rifle system: durability, modularity, and accuracy. The system pairs our ambidextrous lower receiver with our monolithic upper receiver to offer an incredible number of customization options. The MARS H can be an automatic short barrel battle rifle or a semi auto sniper rifle, and it can make that transition in a few minutes; no armorer required! Currently the LMT Heavy system is deployed with several countries including the United Kingdom, New Zealand and Estonia as a DMR, designated marksman rifle.

PDW

PROFESSIONAL DEFENSE WEAPON

With the development of the monolithic upper receiver, LMT harmonized durability, modularity, and accuracy in the AR15 platform. The MRP is not only one of the most robust and accurate rifle systems in service, it is absolutely the most modular. We expanded on this modularity by developing an upgrade kit that reduces the overall length of the rifle system by 3 inches while retaining full functionality. This system is ideal for close quarters environments and has already been indoctrinated into special operations and law enforcement groups for it's efficiency in CQB scenarios.

MODEL	PDW
CALIBER	5.56 X 45 NATO, 300 BLACKOUT
	DIRECT IMPINGEMENT

PDW SHORTENED EXTENSION PROVIDES A LOWER RECEIVER WITH A 3" SHORTER PROFILE; DESIGNED WITH THE WEAR OF BODY ARMOR IN MIND

MARS PDW LOWER OFFERS FULLY AMBIDEXTROUS CONTROLS, WINTER TRIGGER GUARD, QD ENDPLATE, AND LMT GRIP

UPPER RECEIVER HOUSES 12" OVERALL INTEGRALLY SUPPRESSED 300 BLACKOUT BARREL. REVOLUTIONARY VBS300 SUPPRESSOR REDUCES BOTH BLOWBACK AND CYCLIC RATE INCREASE

GRIP STOP INSTALLED ON BOTTOM RAIL FOR SAFE AND EFFECTIVE HAND PLACEMENT

The Confined Space Weapon. Mission built for small environments with discreet requirements. This weapon system is chambered in 300 blackout, has an overall length of 24", and is capable of shooting sub-sonic and super-sonic ammunition with no weapon manipulations. This weapon is designed for close, concealed, and quiet work but has the capability to engage at longer distances. The suppressor utilizes the latest technology formed through a group effort by LMT Defense and Lawrence Livermore National Laboratory. LMT's VBS suppressor has a lower thermal signature, no blowback and is hearing safe with sub-sonic ammunition. All of these features coupled with the modularity and ambidextrous controls of the LMT systems makes for one of the most effective close quarters weapons ever produced.

GL

GRENADE LAUNCHER

LMT has been manufacturing grenade launchers and their parts for over 35 years and in that time, we've established ourselves as one of the world's foremost suppliers of the M203. In 2010 we recognized the modern military transition to quad rail foreends and designed one of the only grenade launchers in the world that can mount directly to one. We took that a step further in 2018 with the "Shorty 40", a launcher capable of standalone implementation or attachment to an SBR. If there's one term that defines LMT it's modularity; our grenade launchers and their accessories are exceptionally versatile systems useful for lethal and nonlethal operations.

MODEL	M203
CALIBER	40 MM, 37MM
OPERATION	SINGLE SHOT / BREECH LOADED
SIGHTS	LEAF OR QUADRANT
FINISH	MIL-SPEC ANODIZED ALUMINUM
BARREL	7", 9", OR 12"
RIFLING	1:48" / 1,219 MM RH, SMOOTH (37MM)
BREECH OPENING	5.43" / 138 MM
EFFECTIVE RANGE	375M (7"), 400M (9"), 425M (12")
FIRE CONTROL	FIRE / SAFE SWITCH

GL

GRENAD LAUNCHER

LMT grenade launchers come in a wide variety of configurations, giving the modern warfighter a choice of weapon size, orientation, and suitability to get the job done.

SHORTY 40

The Shorty 40 stands alone as its own proprietary system with a frame tailor fit to its unique size. It also uses our Professional Defense Weapon (PDW) stock and extension. The pistol configuration fits conveniently in a backpack or holster for quick-draw usage without the need to mount on a weapon system.

M203 ENHANCED

The Enhanced M203 system will accept the 9" or 12" M203 barrel and its design allows it to be rail mounted. This is a perfect companion to our monolithic one-piece upper receivers, allowing operators to quickly add or remove a launcher to suit the mission at hand.

LMT'S NEWEST GRENAD LAUNCHER: A COMMERCIAL FRIENDLY 37MM FLARE LAUNCHER; AN INCREDIBLE ASSET FOR DISASTER RELIEF OR THE 4TH OF JULY.

M203

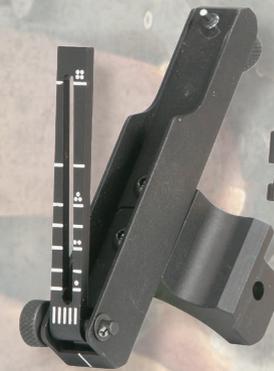

M203FL
37MM
FLARE LAUNCHER

Our M203 can act as a standalone launcher or install to an M4/M16 series rifle by either wired mounting bracket or a quick-detach assembly.

M203 SIGHTING

Our launcher systems wouldn't be complete without sights, and we offer several different models to suit the operator's needs. We designed the LMP391A, our newest leaf sight, for the New Zealand Defence Force. It attaches directly to our rail mounted launchers.

REFERENCE RIFLES

UK: L129A1

LM308SS
16" SEMI-AUTO SHARPSHOOTER
L129A1 REFERENCE RIFLE

In use with the UK Ministry of Defence since 2009, the L129A1 is the most versatile, heavy caliber weapon to meet engage targets at both long and short ranges. Dubbed the "SHARPSHOOTER," the LM308SS is the civilian equivalent to this precise and reliable weapon system.

ESTONIA: R20 RAHE

CQBMK16-MARSCA
16" SEMI-AUTO REFERENCE RIFLE

LMT's most recent large scale contract the R20 RAHE or "Hail", is an accurate, reliable, and modern weapon system designed for any engagement. Ready for any fight, the Estonian Defence Force picked the MARS L and H for long-term reliability.

NEW ZEALAND: LMT MARS-L

MARSL16NZR 16" SEMI-AUTO REFERENCE RIFLE
Chosen to replace the bullpup style AUG, NZDF picked the MARS L as their primary fighting carbine. The full ambi AR style weapon has improved the lethality of the NZDF warfighter from day one.

MILITARY

LMT has a rich history serving the US Military and its allies across the globe. Whether its with guaranteed replacement parts for the M16/M4 family of weapons, or complete carbines, rifles, and grenade launchers, we stand ready to serve those who need the highest quality equipment when failure is not an option.

SPM14

MRP: LMT'S MODULAR WEAPON SYSTEM

The battlefield is constantly changing. Today's modern warrior needs a vital piece of equipment that can not only keep up with those changes, but stay ahead of them with a tactical advantage. Enter the MARS H, specifically our DMR built in 6.5CM with our uniquely designed VBS suppressor. This game changing weapon can swap barrel lengths and calibers in a matter of minutes. That combined with a no-tools change stock system, allows the shooter to completely adapt this weapon to each mission.

LIFESTYLE

BUILD OR BUY YOUR NEXT LMT

The "LMT Lifestyle" may seem like a new concept, but the core of its meaning has always existed within LMT ownership. Those who have chosen to shoot an LMT carbine or rifle always refer to it as "MY LMT" rather than "my AR" or "my weapon." The brand name itself carries with it a sense of distinction among its peers in the firearm community. Whether you are on the civilian target range or getting your loadout ready for your next mission, the pride and confidence you have in your LMT is always evident. Be sure to represent by using the #MYLMT tag in your next social media post.
