## MODULAR AMBIDEXTROUS RIFLE SYSTEM - LIGHT

When LMT developed the MRP upper receiver, bounds were broken in what was considered modern service rifle modularity and capabilities. With the fielding of the MARS system, those established norms were quickly shown to be antiquated. The MARS-L system embodies true modularity and versatility for todays war fighter. With the ability to quickly change barrel operating systems and calibers, along with true ambidextrous controls, end users no longer need to conform or adapt to weapons with limited capability. LMT offers the best service weapons for current and future fields of operation with unmatched performance characteristics among other fielded light weapons.

## MODULAR AMBIDEXTROUS RIFLE SYSTEM - HEAVY

The MARS-H weapon system has set a new standard in multipurpose battle rifles. Employing two different operating systems, multiple calibers, and various upper and lower receiver configurations to match any mission profile, the MARS-H is a proven effective tool that can be tailored for the customer by LMT or by the end user in the field to adapt to any scenario. Featuring a monolithic upper and full ambidextrous lower that is ergonomically identical to the small frame LMT carbine, the MARS-H will be familiar and easy to use for a shooter looking for the best blend of accuracy, modularity, and most of all battlefield reliability. Now available in both piston operation as well as direct impingement.

# GRENADE LAUNCHER

The 40MM M203 is one of LMT's specialty manufactured products. With nearly 40 years of manufacturing experience, the M203 remains one of our core products with a loyal global customer base. Whether it is the Mil-Spec 12" barrel mounted unit, or an updated version of the classic M79 "Thumper", LMT has a grenade launcher unit to meet the needs of professionals on and off the battlefield. The M203-2003 is a rail mounted version of the tried and true 40MM launcher that can be configured in various formats to meet the needs of less-lethal users as well and warfighters making it a versatile force multiplier in any unit.

# GRENADE LAUNCHER

The Shorty 40 stands alone as its own proprietary system with a frame tailor fit to its unique size. It also uses our Professional Defense Weapon (PDW) stock and extension. The pistol configuration fits conveniently in a backpack or holster for quick-draw usage without the need to mount on a weapon system.

# LEGACY SYSTEMS

## LEGACY SYSTEM UPGRADES

\*New weapon system retains only serialized lower receiver and any must have legacy components.

LMT Defense offers programs for agencies and defense forces for upgrading legacy systems to meet the standards of modern users and engagement needs. Starting with excellent consulting, LMT will determine the best configuration based on usage requirements and develop a package best suited to those parameters. From there LMT can produce, deliver, and then train on-site staff to update on-hand inventory.

## M4/M16 CLASS SYSTEMS

To meet the needs of agencies or defense forces that require the classic, and still serving M4A1 pattern carbine, LMT is committed to maintaining product and support of mil-spec weapons. These can be configured as issued or meeting bespoke needs.

## DEFENDER CLASS CARBINES

For end users with minimal requirements and require a standard carbine with essential ergonomic upgrades, LMT offers the Defender (Guardian) line of weapons that retain the standard M4 non-ambi lower but come equipped with the MRP upper receiver to maintain handguard rigidity, and the quick change barrel capability.

# MILITARY

## MRGG-A

THE LMT USSOCOM MID-RANGE GAS GUN ASSAULT CONTRACT WINNER. THIS WEAPON MARKS A NEW ERA IN MODERN COMBAT CAPABILITY AND MODULARITY WITH ITS MULTI-CALIBER DEPLOYMENT KIT. THE COMPACT PROFILE KEEPS IT AGILE IN CQB ENVIRONMENTS WHILE STILL BEING CAPABLE OF EXTENDED RANGE ENGAGEMENTS. A TRUE MULTI-PURPOSE BATTLE RIFLE.

## SPECWAR

THE FIRST MRP UPPER GROUP TO SEE EXTENSIVE CONTRACT USE WITH UNITED STATES SPECIAL WARFARE UNITS. THE "SPECWAR" IS AN ULTRA RELIABLE UPPER GROUP DEVELOPED FOR M4 LOWERS BY END USERS TO ENHANCE CAPABILITES WITH LASER USE AND INCREASE TRAINING EFFICIENCY WITH THE QUICK CAHNGE BARREL AND INCREASE LETHALITY AND LONGEVITY WITH M855AI AMMUNITION.

## NEW ZEALAND

THE DEFENSE FORCE CONTRACT IN WHICH THE MARS-L WAS INITIALLY FIELDIED. THIS WEAPON WAS DEVELOPED TO THE NZDF REQUIREMENTS TO INCLUDE MULTIPLE CONFIGURATIONS DEPENDING ON UNIT USE.

## SWITZERLAND

LATEST MARS-L CONTRACT. A CATALOG CONFIGURATION PISTON SYSTEM SIMILAR TO THOSE USED BY THE EDF OFFERED IN TWO BARREL LENGTHS. FINISH NOW FEATURES FDE IR CERAKOTE AND OTB ENHANCEMENTS.

## ESTONIA

LMT WON THE ESTONIA DEFENCE FORCE CONTRACT AFTER EXHAUSTIVE COMPETITIVE TESTING. EDF SELECTED TWO 556 MARS-L CARBINES AND A 762 MARS-H SYSTEM INTRODUCTION AND FIELDING OF THE MARS-H PISTON.

## UNITED KINGDOM

AFTER MORE THAN A DECADE OF LOYAL SERVICE, THE LI29AI SYSTEM RECEIVED BOTH UPGRADES AS WELL AS NEW FIELDIED LI29A2 RIFLES. UPGRADES INCLUDE FINISH, LONGER FOREND IN MLOK, DMR STOCK AND A FULLY AMBIXTEROUS LOWER RECIVER.

# LAW ENFORCEMENT

## DEPT SPECIFIC CONFIGURATIONS

### **CQBPSI2-MARSMOE**

CUSTOM BASE WEAPON SYSTEM CONFIGURATIONS AVAILABLE TO MEET THE NEEDS OR ERGNOMIC REQUIREMENTS OF USERS AT DEPARTMENT LEVEL. LMT CAN PROVIDE THIS OPTION FOR NEW OR LEGACY WEAPON SYSTEMS
